Executions

Initial Solutions by Algorithm

How many initial seeds each RCL algorithm generated in the current slice.

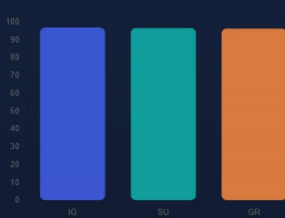

Local Search Performance

Best final score achieved by each local-search service.

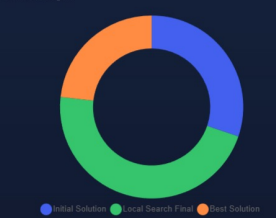

Best Results by Algorithm

Best consolidated best-solution result for each RCL algorithm.

Stage Distribution

Distribution across initial solution, local-search final, and best solution stages.

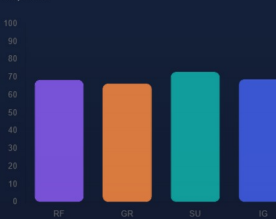

Average CPU by Algorithm

Average CPU usage across persisted snapshots for each RCL algorithm.

Average Memory by Algorithm

Average memory percentage observed across persisted snapshots.

Average CPU by Local Search

Average CPU usage across persisted snapshots for each local-search service.

Average Memory by Local Search

Average memory percentage observed across persisted snapshots for each local-search service.
