Request Summary

Persisted parameters and dispatch metadata for the selected launch.

Request metadata

Request ID: 76d92997-dba-4da0-ad48-ec54a1e3d3a9
Requested at: 20/03/2026, 13:57
Queue state: dispatched
Dispatch coverage: 4/4
Pipeline completion: 1/40 seeds
Seeds observed: 38
Last pipeline result: 20/03/2026, 20:13
Completed at: 20/03/2026, 13:58

Datasets and classifier

Training: erenoall.arff
Testing: erenoall.arff
Classifier: 448
Neighborhood: VND

Construction budget

Max generations: 10
RCL cutoff: 20
Sample size: 5
Neighborhood iterations: 2

Local-search budget

BitFlip iterations: 5
IWSS iterations: 4
IWSSR iterations: 4
Submitted algorithms: 4

Last dispatch

Most recent queued launch created from this browser session.

No execution has been started in this session yet.

ADMINISTRATIVE RESET

Clear persisted monitor state, in-memory runs, and saved improvement notifications for a clean validation cycle.

CLEAR BROWSER STATE ONLY

Reset monitor state

Restart and clean environment
